

Name: Heather Gayle Holdridge

Company/Organization: Lake/Flato Architects

Title: Sustainability Coordinator

Is your company/organization a National USGBC member? Y/N

Chapter Board position: Education Committee Liaison

Years as a chapter member: 5 Years

LEED AP: Y/N

Leveraging her background in mechanical engineering, Heather assists all Lake/Flato project teams in establishing achievable sustainability goals by devising strategies and establishing methods and systems to realize those goals under programs such as the 2030 Challenge, LEED, and ENERGY STAR. Heather works closely with design teams to evaluate energy efficient systems and performs energy modeling to help each team understand the implications of their decisions throughout the design process. Heather is a certified RESNET Home Energy Rater and worked as a residential rater and LEED for Homes provider before she came to Lake/Flato. She is an Associate AIA member and is a registered Engineer-in-Training with the Texas Board of Professional Engineers. She currently serves as Co-Chair for AIA San Antonio's Committee on the Environment.
