

Name: Liza Meyer
Company/Organization: City of San Antonio - Office of Environmental Policy
Title: Special Projects Manager
Chapter Board position: Secretary
Years as a chapter member: Two Years

General overview:

Liza Meyer's career within state and municipal government makes her experienced in a variety of environmental issues including resource recovery, air quality, energy conservation, and high performance building. She is the Special Projects Manager for the City of San Antonio's Office of Environmental Policy. Her board position with the Chapter is mutually beneficial; it will enhance the CoSA's recent commitment to the concept of sustainability, by serving as a resource for national, state and municipal policies, while dually strengthening the Chapter's ties to local government and beyond. "I will provide a

platform to encourage green building practices to be fully sustainable within City departments, the business community and other public agencies." As the Director of the local chapter of Keep America Beautiful from September 2001 to May 2004, Liza engaged in fundraising, education, and outreach to the community's public and private sectors on the benefits of green building and the environment. Under her guidance and with the help from a grant from the CoSA, recycling participation increased in this community by 76%.
